

STERLING PADDING PRESS

SR A3/A4 Heavy Duty Padding Press

Description

This high quality padding system has been designed to provide fast, accurate and simple clamping of form sets, books and notepads. The unique spring loaded clamp bar applies variable pressure to all heights of paper stack very quickly, by means of a simple slide-and-lock system. This padding press has been designed for use singly for general jobbing work, or as a modular system with a number of presses used in a working cycle to produce very large volumes of padded work.

Features

- ~ Large Capacity
- ~ Heavy Duty all steel construction
- ~ Variable pressure
- ~ Fast, accurate and simple for the user

Technical Specifications
